REPLIES RECEIVED FROM GOVERNMENTS

Mongolia ................................................................. 2
"The Mongolian People's Republic has strongly condemned the inhuman policies of apartheid pursued by the Government of the Republic of South Africa as a crime against humanity.

The people and Government of the Mongolian People's Republic, gravely concerned over the policy of brutal oppression of the African people, which creates a dangerous situation in southern Africa threatening international peace and security, have come out for adopting most effective measures in order to put an end to the shameful policies of apartheid and firmly stand for the legitimate struggle of the oppressed people of South Africa for their equal rights and fundamental freedoms. The Government of the Mongolian People's Republic, within its capabilities, has been rendering moral and material assistance to the freedom fighters of South Africa.

In accordance with the provision of General Assembly resolution 2396 (XXIII), the International Day for the Elimination of Racial Discrimination was widely observed in Mongolia through press, radio, television and other information media.

The Government of the Mongolian People's Republic strictly complies with all the provisions of the relevant resolutions of the United Nations General Assembly and the Security Council and strongly condemns the policies of the United States of America, the United Kingdom of Great Britain and Northern Ireland, the Federal Republic of Germany and others which, in disregard of the pertinent decisions of the various United Nations bodies, continue to render assistance to the racist régime of South Africa, thus obstructing the efforts of the United Nations aimed at the elimination of colonialism, apartheid and racial discrimination in southern Africa.
As far as the Mongolian People's Republic is concerned, she does not maintain political, economic or any other relations and will refrain from entering into any relations with South Africa so far as it continues to pursue the inhuman policies of apartheid.

The Mongolian People's Republic will further support the efforts of the United Nations aimed at the elimination of colonialism, apartheid and racial discrimination in southern Africa."
