PREFACE

The Check List of United Nations Documents (ST/LIB/SER.FI) will be a complete list of the documents issued by the organs of the United Nations. The Check List will appear in separate parts, each one devoted to the documents of a particular organ. The following table discloses the general plan.

Individual parts are in one or more numbers listing documents from the beginning of 1946 to the end of 1949.

In addition to the list of documents, every part contains a subject-index, an index of personal names when necessary and introductory notes giving information on the organization of the organs concerned. It also notes the unpublished records of meetings and sound recordings deposited in the Archives of the United Nations and the press releases concerning meetings.

Part 6B:1 of the Check List of United Nations Documents comprises the documents of the nuclear Temporary Transport and Communications Commission and of the Transport and Communications Commission, one of the functional commissions of the Economic and Social Council. Documents issued after the beginning of 1950 are listed in the current issues of the monthly United Nations Document Index.

The user of this volume will find it more helpful if he first reads carefully the explanations to the Check List and the Subject-Index.

ENTRY NUMBER (first column). Documents are referred to by entry numbers in the index to this Check List. Entry numbers do not appear on the documents and should not be used in citations.

LANGUAGE OF ISSUE (second column). The language editions in which a document is issued are indicated as English (E), French (F), Russian (R), Spanish (S), Chinese (C), or bilingual English-French (E&F) texts.

DOCUMENT SYMBOL AND SHORT TITLE (third column). The official document symbol number is at the beginning of each entry. This number should be used in citing documents. In the case of publications without document symbol numbers, titles should be cited together with the session number, issue number, supplement number, and volume number, whichever is included in the entry. Title entries have been standardized and shortened or expanded in order to clarify the meaning of the titles and the authorship of the documents, so the entries do not always conform literally to the actual documentary titles. The collation shows the pagination of the English or bilingual English-French text only. The date appearing on each document below the document symbol number is usually the date of registration of the documentary text with the Bureau of Documents for publications and translation and should be the same in all language texts. The date of registration closes each entry. Corrigenda and revisions are usually grouped with the parent documents in the same entry. Corrigenda are corrections of errors in the text, title, date and classification of documents, emendations of the translation, and additions of omitted text. Addenda include supplementary material, such as annexes, tables, and other additional communications. Revisions are texts revised through formal amendment, or new editions prepared by the submitting delegation or by the Secretariat.

REPUBLICATION NOTES indicate the republication of whole documents in other documents or in the Official Records. In the case of resolutions only their republication in collected sets is indicated, in the case of draft resolutions no attempt is made to note the inclusion of their texts in the verbatim records of meetings.

RESTRICTED Documents of “restricted distribution” are indicated in this Check List by a black dot (•) before the symbol.

INTRODUCTORY NOTES give a short parliamentary history of the Commission and describe briefly each Committee session by session, including the date of its appointment, citing its terms of reference, naming its members and officers, listing its reports and document series symbol (if any), and tabulating its meeting records. The plenary meetings are shown in tables for each session. The tables indicate both published and unpublished meeting records and related press releases. Since drafts for the published meeting records should be deposited as a matter of course in the Archives of the United Nations, the tables under the heading “Archives” show only the unpublished manuscript records deposited in the Archives (“TPW”; “TSR”) and the sound recordings (“X”).

Establishment of the Temporary Transport and Communications Commission

The Temporary Transport and Communications Commission, one of the nuclear functional commissions of the Economic and Social Council was established by Economic and Social Council Resolution 1/10, adopted on 16 and 18 February 1946. It was composed of nine members, appointed in their individual capacity by the Council, for a term of office to expire on 31 March 1947*. At its 13th plenary meeting, 18 February 1946, the Council appointed six persons by name as initial members and three additional members to be nominated by Chile, China, and the Union of Soviet Socialist Republics. Terms of reference: In Economic and Social Council Resolution 1/10, E.S.C.O.R., 1st session, Annex 8, p.170.

Establishment and Composition of the Transport and Communications Commission

The Transport and Communications Commission was established as a permanent Commission by Economic and Social Council Resolution 2/7, adopted 21 June 1946, according to a suggestion made in the report of the Temporary Transport and Communications Commission. Terms of reference: In document E/270, entry 58. The Commission consists of one representative from each of fifteen Members of the United Nations selected by the Council. Except for the initial period, the term of office is three years. For the initial period one-third of the members were elected to serve for two years, one-third for three years, and one-third for four years. Accordingly, the Economic and Social Council at its 46th plenary meeting, 2 October 1946, elected the following fifteen nominating States: Brazil, India, the Netherlands, Poland, and the United Kingdom to serve for two years; Chile, China, France, and Norway to serve for three years; Czechoslovakia, Egypt, the Union of Soviet Socialist Republics, the United States of America, and Yugoslavia to serve for four years. With a view to securing a balanced representation in the various fields covered by the Commission, the Secretary-General of the United Nations was instructed to consult with the Governments so selected before the representatives were finally nominated by these Governments. The nominations by the Member States have to be confirmed finally by the Council. Accordingly, the Council in a special meeting, 10 December 1946, confirmed ten nominations submitted by the Secretary-General (documents E/250 and E/292). The Council decided at this meeting with regard to the five remaining Countries from which nominations had not been received that members nominated might serve provisionally pending their confirmation by the Council at its next session. Subsequent nominations by Chile, Egypt, France, Poland, the Union of South Africa, and a replacement by China were confirmed by the Council sitting as a Committee of the Whole on 26 March 1947. (See documents E/263 and E/263/Add.1, E/263/Add.2 and E/378/Rev.1.)

At its 202nd meeting on 17 August 1948, the Council filled the vacancies caused by the expiration of the term of office of the one-third of the membership initially elected for two years, by re-electing India, the Netherlands, Poland, and the United Kingdom and electing Venezuela in place of Brazil for a term of three years. The members nominated and re-nominated by the elected Countries were confirmed by the Council at its 272nd meeting on 11 March 1949. See document E/1308.

At its 315th meeting on 1 August 1949, the Council replaced one-third of the members whose terms of office were to expire by the end of 1949, re-electing Chile, China, France, Norway, and the Union of South Africa for a term of three years (1950-1952). See document E/1508.

Members and Terms of Office

The members of the Commission during the first, second and third session are shown in the following tables. Terms of office begin 1 January and end 31 December for the years indicated below.

SUBJECT-INDEX

Explanation

Documents of the Temporary Transport and Communications Commission and of the full Transport and Communications Commission are indexed by the entry numbers in the check list.

Discussions are indexed by the entry numbers of the tables of meeting records and, following the colon (:), by meeting numbers. Thus the following entry in the Subject-Index:

Tonnage: measurement 120; discussion 106:30,33

is to be interpreted: Tonnage measurement is treated in the document listed in entry 120, which is document E/CN.2/57. The meetings in which the subject was discussed will be found in the table of meetings of the third session of the Commission in entry 106, where the 30th and 33rd meetings are shown to have taken place on 23 and 25 February 1948.

Introductory notes are likewise indexed by entry numbers.

Persons are indexed in the Index of Personal Names.
