Corrigendum to the Summary Record of the Eleventh Meeting.

On page 4, delete second paragraph and read the statement of Mr. Pesmazoglou as follows:

"Mr. Pesmazoglou (Greece) pointed out that owing to circumstances the Greek Government, if the principle of group feeding was rigidly applied, would be obliged to feed not those who were in the greatest need, but those to whom it was possible to give prepared food through a group feeding system. The Greek Government supported the view of feeding children through group feeding or otherwise, taking under consideration existing possibilities and the interest of children. It considered such a principle under present conditions as an ideal".
